## Contents

Infrared diffuse reflectance study of CO chemisorption on supported rhodium catalysts P. Gibson and P.C. van Berge .....	1
Trimethylamine oxide induced substitution reaction of MM'(CO) <sub>10</sub> (M,M' = Mn, Re). Synthesis and characterization of MM'(CO) <sub>9</sub> L (L = group 15 donor ligands) W.L. Ingham, A.E. Leins, and N.J. Coville .....	6
Determination of sulphate by flow-injection analysis using a coated tubular solid-state lead ion-selective electrode J.F. van Staden .....	13
Excess molar enthalpies and excess molar volumes on mixing an aromatic compound with an alcohol at 298,15 K T.M. Letcher, A.K. Prasad, and J. Mercer-Chalmers .....	17
Polyvinylpyrrolidone-iodine solutions as oxidizing agents in volumetric determinations C.J. Coetzee .....	22
Reaction between 2-nitrophenol and trichloroacetaldehyde: X-ray crystal structure of 8-nitro- and 8-nitro-6-methyl-2,4-bis(trichloromethyl)-1,3-benzodioxin H.M.N.H. Irving and A. Irving .....	25
Fragmentation patterns in the mass spectra of 2,3-dihydro-2-phenyl-1,4-benzoxazepin-5(4H)-ones P.T. Kaye and R.D. Whittal .....	30
Synthesis of the thionucleoside moiety of albomycin δ <sub>1</sub> M.W. Bredenkamp, C.W. Holzapfel, and A.D. Swanepoel .....	31
Total synthesis of swazinecic acid. Part 2. Synthesis of a spirodilactone J.R. Liddell and C.G. Whiteley .....	35
X-Ray diffraction analysis of the ammonium nitrate IV - III - II and IV - II phase changes under controlled humidity conditions J.C.A. Boeyens, E. Ferg, D.C. Levendis, and F.R.L. Schöning .....	42
An electrochemical investigation of the effect of nickel and ruthenium on the dissolution of a high chromium super-ferritic stainless steel in reducing acid media J.H. Potgieter and M.U. Kincer .....	47
Cobalt salts in nonane oxidation with dioxygen A. Goosen, C.W. McCleland, and J.S. O'Connell .....	51
A mass spectrometric study of 2,3-dihydro-2-phenyl-4 <i>H</i> -tetrazolo[1,5- <i>d</i> ]-1,4-benzoxazepines P.T. Kaye and R.D. Whittal .....	56

## Inhoud

Synthesis of symmetrical diaryl selenones and their characterization by mass spectrometry T.E. Tyobeka and P.W. Rasmussen .....	60
A molecular mechanics study of crystalline dodecahedrane J.L.M. Dillen .....	62
Structure and stability of some complexes of lariat ethers with sterically-hindered pyridyl groups as pendent donors K.V. Damu, R.D. Hancock, J.C.A. Boeyens, D.G. Billing, and S.M. Dobson .....	65
Photolysis of <i>N</i> -halocarbamates: alkene addition reactions J.P. Gerber and A. Goosen .....	71
Crystallographic study of <i>N</i> -arylpyrrolidin-2-ones D.G. Billing, J.C.A. Boeyens, D.C. Levendis, and J.P. Michael .....	75
Diterpenoids of <i>Leonotis</i> species. Part 8. The crystal structure and absolute stereochemistry of saponified dubiin M.T. Davies-Coleman, R.B. English, and D.E.A. Rivett .....	80
Synthesis of the naturally occurring naphthoquinone aristolindiquinone M.E. Botha, R.G.F. Giles, S.C. Yorke, and I.R. Green .....	84
Influence of bridgehead functionality on reactions of 14 $\alpha$ ,17 $\alpha$ -etheno-19-norsteroids J.R. Bull and R.I. Thomson .....	87
Trichloroacetylisocyanate: rapid <i>in situ</i> determination of diastereomeric ratios of alcohols by $^1\text{H}$ n.m.r. spectroscopy G.H.P. Roos and M.C. Watson .....	95
Preparation of cyclic thionocarbonates of carbohydrates: new light on the regioselective tin activation of polyols M.W. Bredenkamp, C.W. Holzapfel, and F. Toerien .....	97
Oxidation kinetics of a Fischer-Tropsch wax. Part 2. Induction period as first macroscopic process stage E.L.J. Breet and A.S. Luyt .....	101
Ion chromatographic separation of Cr <sup>III</sup> and Cr <sup>VI</sup> and spectrophotometric detection of Cr <sup>III</sup> -EDTA and Cr <sup>VI</sup> -DPC species H. de Beer and P.P. Coetzee .....	105
Studies on the chelation of aluminium for biological application Part 3. Maltol G.E. Jackson and C.B. Steyn .....	110
Compensation effects in ligand-substitution reactions of aquacobalamin H.M. Marques .....	114
(Liquid-liquid) equilibria for mixtures of an alkanol + water + cyclohexane at 298.2 K T.M. Letcher, P. Siswana, and S.E. Radloff .....	118
Synthesis of formaldehyde bis(pentaerythritol) acetal (BPMF) R. Hunter and C.D. Simon .....	122
Empirical energy parameters for the ionic halides G. Brink, L. Glasser, and A. Mattheus .....	125
